

# Non-Edible Gingerbread House STEAM Challenge

	4 Exemplary	3 Good	2 Acceptable	1 Needs Improvement
<b>Required Structures:</b> roof, exterior walls, 2 windows, 1 door, 1 gingerbread person	Has all required structures installed and they are easily recognizable	Has all required structures but they may not be easily recognizable or installed	Is missing 1 or 2 of the required structures; structures are not necessarily recognizable and/or installed	Is missing more than 2 of the required structures or structures are not recognizable
<b>Foundation/ Free-standing</b>	House is constructed in such a way that it is completely free-standing	House is standing but may not be completely upright or self supporting	House needs support from an external force/ object	House does not stand
<b>Design matches plan</b>	Blueprints and house match almost completely with only 1-2 small discrepancies	Blueprints and house match but there are 3- 5 discrepancies; Builders can explain reasons for discrepancies	Blueprints and house match but there are more than 5 discrepancies and builders cannot account for discrepancies	It is hard to recognize the constructed house when compared to the blueprints
<b>Teamwork</b>	Team appears to have worked very well together and you can tell because of the quality of the constructed house.	Team appears to have worked well together but encountered a problem in bulding their house.	Team admits to arguing about some aspect of the house but overall construction is okay.	Team struggled in several areas of house building and it shows in their final product.

	<b>Comments</b> 1 compliment, 1 critique (stated positively)
